Team Duct Tape, Florida State Champion High School Robotics Team at coolTECH June 4

FIRST Tech Challenge (FTC) Team Duct Tape, a community based robotics team from Odessa, FL, fresh off a 2009 Florida State Championship win, and just back from the FIRST World Championship in Atlanta, will be appearing at coolTECH 2010 on June 4, at MOSI, the Tampa Museum of Science and Industry at 4801 East Fowler Avenue .

Now in its third year, coolTECH annually showcases breakthrough technologies and cutting-edge innovations that impact the way how people live and work. Among the emerging technologies on display at coolTECH 2010 are personal electronic transportation vehicles, digital pen and paper that captures handwritten data, motion activated video game technology, a balancing belt by Draper Labs, and great programs like FIRST robotics, which Team Duct Tape will be helping represent, that provide unparalleled hands on STEM education opportunities for

youth.

FIRST Tech Challenge is a mid-level robotics competition for high-school student that seeks to engage youth in discovering the excitement and rewards of science, technology, and engineering. One of Team Duct Tape's student members will also be showcasing a creation of his own, a remotely operated robot that can be driven by almost anyone, from almost anywhere. coolTECH guests will have the opportunity to learn more about FIRST, see the team's award-winning robot firsthand and have an opportunity to drive Team Duct Tape's robot, as well.

Team Duct Tape is sponsored, in part, by the non-profit education resource organization, Learning is for Everyone, which believes that high quality STEM education should be accessible to all youth, and that every student with an interest in math, science, and technology should have an opportunity to express and explore those interests. LIFE Inc. seeks to bring high school level robotics as within reach as Scouting, and to make it as commonplace, accessible and fun as a pick up game of basketball.

Visit www.TeamDuctTape.com to learn more or come by Team Duct Tape's booth at coolTECH to meet team members and see their robot and learn more about what they've accomplished.

Learning is For Everyone, Inc. is a nonprofit 501 C(3) organization whose goal is to provide information resources on and off the web, and assistance through its activities in all aspects of education at all stages of life.
